

THE OTHER SIDE OF THAT MEETING

Of the Republican Central Committee Held at Santa Fe Yesterday.

A SPECTATOR INTERVIEWED

A spectator who was present at the meeting of the republican central committee in Santa Fe, gives the Citizen some very interesting facts about it. He says that there were but thirty-five of the seventy members present, either in person or by proxy, and that in fact, half of the thirty-five were represented by proxy; that but fifteen counties were represented in either manner of the twenty-five counties; that of the remaining ten counties, some of them are almost unanimous for jointure. Six men or three county representatives, voted against the anti-jointure resolution, so that taking those from the fifteen, only twelve counties were represented, or less than half the territory, but this is not the worst, for ten of the votes cast for the anti-jointure were by the executive committee, which was permitted to vote, and should not have been, as they were selected simply from friends of the push, and not like the two regular delegates from each county, representing the party in that county. Gentlemen present showed telegrams from the two delegates from Lincoln county, one delegate from Lincoln county, one from Chavez county, and one from McKinley county, while other gentlemen had letters from several other of the missing counties, practically all of which were against the resolution, so that it can be seen that the meeting was not in any sense representative. First, it did not represent half the counties of the territory; next, twenty-seven out of the twenty-nine votes cast for the resolution were votes of office holders under the thumb of the administration. It is funny that these men pretend to declare what the sentiment of the republicans of New Mexico is. Gregory Page, who is the only anti-jointure statehood man in his entire county, had the cheek to vote there for that resolution, as representative of his entire county.

The whole thing was lame. No one around Santa Fe could tell what the meeting was about, or what it was called for, as none of the calls were in evidence. The delegates themselves did not know. After the delegates all arrived that did come, they reported all around the hotels that there would not be anything said on statehood, yet that was the only thing done. It was a sickly affair, and those taking part seemed to feel that way about it. It will have no effect, as the actual signatures of the people as favoring joint statehood will have more effect with congress. The league is receiving dozens of lists of the signatures of the people now daily, favoring jointure.

WOULD RATHER ATTEND SCHOOL THAN MARRY

PUEBLO INDIAN GIRL FLEES FROM HOME TO ESCAPE BEING COMPELLED TO WED PROMISING BUCK.

Leaving home under cover of night and fleeing to the Indian school in this city to escape being forced to marry a promising young buck of her native village is the strange story told by the authorities of the Albuquerque Indian school.

Maria C. Dolores Padilla, a sixteen-year-old Pueblo girl from Isleta, arrived at the Indian school yesterday and asked to be enrolled at once as a pupil. The authorities at the school thought it strange that she should come unaccompanied by her parents or without any soliciting, but numerous questions failed to elicit any information from the Indian maiden.

Finally she confessed that she had fled from the village of Isleta to escape being compelled to marry a young buck, whom her parents had chosen to be her husband. Her story was corroborated last night when the father and mother of Dolores appeared at the school and demanded that their daughter be returned to them. This was refused by the school authorities and after much bluffing on the part of the angry father, the parents departed for Isleta to inform the buck that he would have to seek another bride.

GETS BLACK EYE IN BLUE GOOSE SALOON

INEBRIATED STRANGER WANDERS INTO NOTORIOUS RESORT AND IS ROUGHLY HANDLED BY PROPRIETOR.

The Blue Goose saloon, a notorious resort on North First street, was the scene of another fight last night and as a result one B. E. Day, a stranger who arrived in the city only yesterday, is nursing a badly battered face. It is not known just how the trouble started, but C. A. Sloan, one of the proprietors of the resort, claims that Day wandered into the saloon in a drunken condition and became very abusive. This angered Sloan and he proceeded to take a fall out of Day with the above result. The police are wanted both men a short time after the trouble and each put up a bond of \$10 for his appearance in police court at 5 o'clock this evening, to answer to the charge of fighting.

NEW COMPANY HAS NO LOCAL SIGNIFICANCE

Union Gas and Traction Company Organizes in New Mexico

TO OPERATE IN STATE OF KANSAS

Articles of incorporation were filed at the Bernalillo county court house yesterday for the Union Gas and Traction company, organized under the laws of New Mexico, with a capital stock of \$500,000, to sell, construct, own and operate gas, oil, electric and water works, plants or systems for supplying cities, villages, towns and rural districts with natural and artificial gas, petroleum, coal and other heat producing products, electricity and water for illuminating, heating, power and all other uses, for domestic, manufacturing and other purposes.

The incorporators are C. H. Pattison and N. D. Pattison, of Kansas City, Mo., W. L. Pattison, of Gardner, Kans., C. F. Luby, of Kansas City, Mo., and J. L. Luby, of Albuquerque, N. M., and these men constitute the board of directors. Albuquerque is designated as the principal office of the company.

The purposes of the company, as described in the articles of incorporation, are very vague when considered from a local point of view. The first impression one would get on reading them would be that the Union Gas and Traction company intended establishing power and heating plants in Albuquerque and developing New Mexico oil lands.

J. E. Luby, who is one of the incorporators of the company, is also New Mexico agent for the company. He says that although Albuquerque was designated as the principal place of business of the company, the properties of the company are almost entirely in Kansas and consist of lands in the oil and gas districts of the state and franchises in numerous cities of the state.

These franchises include water works, gas and electric, and traction rights in some of the most important cities of the Southwest state. One of the most important holdings is a franchise recently secured to furnish Topeka with natural gas.

Mr. Luby said that the Union Gas and Traction company came to New Mexico to organize because the incorporation laws of the territory were among the best in the United States.

An Open Letter

To Our Patrons and Friends

We have entered into a contract with Mr. George W. Hickox, agreeing to sell to him our Jewelry Business, including stock, fixtures, and good will, January 1, 1906.

One strong feature of our agreement with Mr. Hickox is that we promise to reduce our very large and complete stock to the lowest possible point before that date and with this end in view, we will begin, Saturday, November 4, a SPECIAL CLOSING OUT SALE to continue until December 31, at which time we positively retire from the Jewelry Business, having arranged to go into the manufacturing lumber business in British Columbia.

Our business in Albuquerque has increased steadily year by year, and grateful for this, we propose for the next two months, to cut out the big end of our profits and to give you such a genuine bargain sale of really Fine, High Grade Goods, as has never been offered in our city.

We invite you to make your selections now and avoid the rush of the December trade. We have ample vault-room and will gladly lay aside the goods you select, until you are ready for them.

We have been in the Jewelry Business 26 years, and have never yet advertised a fake sale. In this sale we will offer you rare bargains in Diamonds and Fine Watches. Every sale will be backed by my personal guarantee. Mail orders solicited and satisfaction assured.

SANTA FE GIVES COUNTY \$400

Railroad Shows Its Appreciation of Work Done on Alameda Dyke.

LETTER ACCOMPANIES CHECK

The Santa Fe has shown its appreciation of the work done by the city and the county in the building last spring of the Alameda dyke by a voucher for \$400, which was received last night by Alfred Grunfeld, chairman of the board of county commissioners. The remittance was not exactly a surprise, as it had been expected. In fact it had been requested of the Santa Fe many months ago and was a long time overdue. The amount is not as large as it might have been, but small favors are thankfully received and \$400 will reimburse the flood fund to no little extent.

The receipt of this \$400 from the Santa Fe brings to the memory the strenuous days of last spring and a year ago last June, mass meetings, etc.

Those were dreary, wet days like Albuquerque is having now. The mud was about as thick in the streets then as it is today.

The following letter from General Manager Hurley of the Santa Fe to Mr. Grunfeld accompanied the voucher for \$400:

The Atchison, Topeka & Santa Fe Railway Company, Office of General Manager.

Topeka, Kans., Nov. 7, 1905.

Dyke North of Albuquerque.

Mr. Alfred Grunfeld, Chairman Board of County Commissioners, Albuquerque, N. M.

Dear Sir:—Regarding the dyke north of Albuquerque constructed by the county, I have had this matter looked into by our engineers with the result that I feel this dyke will be of some benefit to the railway company in the protection of its property, and I am quite willing to make a donation to the county towards the cost thereof.

I therefore have pleasure in sending you this voucher in favor of the commissioners in the amount of \$400.

Kindly acknowledge receipt.

Yours truly,

J. E. HURLEY,
General Manager.
